

International Dual Career Network

company launch
march 16

Steering
Committee:

Invitation to company launch

It is with great pleasure we invite you to participate in our company launch of the International Dual Career Network - Denmark & Sweden hosted by the University of Copenhagen **16th March 16:30 – 18:30 hrs** in International House Copenhagen (6th floor), Gyldenløvesgade 11, 1017 Copenhagen.

The International Dual Career Network (IDCN) is a global non-profit association of companies, NGOs and academic institutions launched in 2011 in Switzerland/Geneva - built and maintained by its corporate members and partner volunteers.

Since then it has expanded globally and is now present in 12 different locations worldwide - developing new branches with a growing number of members. The IDCN's main goal is to facilitate the job search for mobile employees' partners mainly by organising events hosted by the member companies.

At this event we will provide you with additional information about IDCN Denmark & Sweden. You will also have the opportunity to connect with other leading companies with common objectives - to boost the geographical mobility of dual career partners and attract top mobile talents.

We look forward to welcoming you and successfully working together to launch this new IDCN network.

Register here latest 1st March

Benefits for corporate members

- * direct access to a turnkey pool of talent through IDCN's Talent Management Platform (TMP)

What is in it for mobile employees' partners?

Through events IDCN facilitates the job search of partners of relocated employees by providing:

- * support in professional integration in a new country
- * the opportunity to network with human resources professionals, corporate representatives and like minded partners
- * increased awareness of professional opportunities
